

ArtworkOnline

Automated Artwork Generation

Absolute control of your branded packaging

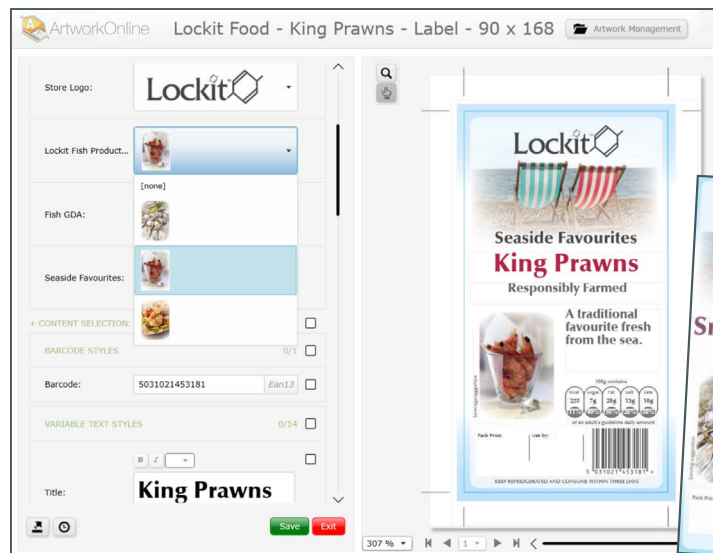

A new artwork variant can be created in just minutes, faster than making a phone call to your agency!

- Create artwork online from anywhere, at any time from as little as £2*
- Create accurate and compliant packaging in minutes
- Ideal for designs with high levels of consistency
- Generate industry standard, print ready Pdfs in any language
- Generate your packaging 'just in time' within your manufacturing process

ArtworkOnline is ideally suited for creating artwork ranges that require high levels of brand consistency. Let templates control your brand supporting automatic adoption of global and local design guidelines. Using the Online Editor your nominated stakeholders can interact with permitted variables such as

images, barcodes, text, colours and fonts.

A live 'WYSIWYG' preview shows you exactly what you'll get when you generate your print ready Pdf file.

Create & edit high volumes of version controlled Artwork Pdf files rapidly with ease!

ArtworkOnline's Management page empowers you to edit multiple artworks and extend ranges for each template.

Last minute changes such as weekly price updates for example can be completed quickly and easily.
